

5000

The 5000 is a 500mm x 250mm jaw action crusher. Instant hydraulic adjustable jaws allow output product sizes to range from 20mm up to 100mm. Being only 1,665mm wide, the 5000 can enter sites where access and space are restricted. Dust suppression is fitted as standard, by means of fine water spray nozzles utilising standard domestic hose pressure.

The 5000 makes light work of reinforced concrete, brick, porcelain and other aggregate type products. Crushing with the 5000 can save thousands of pounds of much away and bought in backfill. It is easily transported from site to site using a plant trailer and can be up and crushing within 5 minutes. Using the wireless remote control system, crushing with a 5000 can be a one person operation.

STANDARD FEATURES

Jaw aperture | 500mm x 250mm

Average product size 20mm - 100mm

Hydraulic powered

Kubota V1505-E4B 4cyl water cooled diesel engine

18.5KW/24.8HP

Wireless remote control system

DIMENSIONS

Length 4,300mm

Width 1,665mm

Loading Height 1,850mm

Weight 2,755kg
