

5000ES

Our 5000ES crusher is a cost-effective solution for smaller clearance projects. Thanks to its narrow gauge and maneuverability, this machine can easily access sites where space is restricted. Avoid costly muck away charges and save on bought in hardcore costs, with output product sizes ranging from 20mm to 100mm.

This machine comes with a 500mm x 250mm jaw action crusher as standard, with an electric plug and go power supply. Jaw size adjustments can be made manually, with the option for a discharge conveyor, vibrating feeder hopper and dust suppression spray bar.

The 5000ES can be transported easily using a plant trailer and forklift truck and from placement to set up, can be operational within just 5 minutes. Make crushing simple and efficient, with reinforced concrete, brick, porcelain, glass and other aggregate materials easily crushed with the Red Rhino promise of reliability, high performance and versatility that is unrivalled elsewhere.

STANDARD FEATURES

Jaw aperture 500mm x 250mm
Average product size 20mm - 100mm
Power supply 3 phase 380/415v
400V/15KW AC Electric motor
63 Amp 5 pin appliance power inlet
Choice of hydraulic or electric power

DIMENSIONS

Base footprint	1,950mm x 1,200mm
Length with discharge conveyor	4,350mm
Length without discharge conveyor	2,000mm
Conveyor discharge height	1,650mm

Loading height	2,300mm
----------------	---------

Weight without conveyor	1,815kg
-------------------------	---------

Weight with conveyor	2,050kg
----------------------	---------
