

7000ES

The 7000ES is a Static Jaw Crusher with a proven track record of performance and reliability derived from the 7000 Mobile Crusher. The Static model lends itself to long duration crushing at a single base point.

Featuring a 700mm x 400mm Jaw action crusher, producing up to 45 tons per hour and a manual product adjustment range of 30mm – 120mm, the 7000ES is an electric operated model with a plug-and-go set up. Push button control starts the crushing and discharge conveyor in sequence and can be operational within a short time of reaching the site. The control panel is also equipped with a reverse crush control to help release difficult material, as well as a speed control on the discharge conveyor. The Hopper Feeder can be configured as a Static or Vibrating loading option.

This machine requires a 415V, 3 Phase, 125 Amp power supply and comes with a 4 Metre input lead c/w 5 Pin connection socket. The machine has built-in lifting points as well as fork-lift access points.

STANDARD FEATURES

Jaw aperture 700mm x 400mm
Average product size 30mm - 120mm
Discharge Conveyor 900 Wide, 3 Ply Chevron Belt
415 Volt 3 Phase Power Requirement
Static Feeder Hopper

DIMENSIONS

Working Length	6570mm
Height	2615mm
Width	1770mm
Loading Height	2615mm
Conveyor Discharge Height	1960mm
Weight w/ Conveyor (std machine)	9375 kgs
Weight less Conveyor	8875 kgs

ELECTRICAL REQUIREMENTS

415v 3 Phase 125 Amp Supply
Crusher Motor 45kw
Conveyor Motor 3kw
Feeder Motor 1.3kw

FACTORY OPTIONAL EXTRAS

Vibrating Feeder Hopper
Water Suppression spray bar
Discharge Chute (no conveyor)
